PROFESSIONAL SUMMARY

Informatics engineering student specializing in Artificial Intelligence with hands-on expertise in cross-platform mobile development using Flutter and Dart. Demonstrated leadership as Team Leader and Front-End & AI Developer for **AURIX**, a smart tender management system. Adept at bridging AI concepts with practical mobile applications, backed by solid foundations in UI/UX design, REST APIs, and database management. Passionate about writing clean code and delivering intuitive user experiences.

PROFESSIONAL EXPERIENCE

Flutter / Mobile Development Trainee

2026 – Present

Damascus Intermediate Institute – UNRWA

- Building responsive cross-platform mobile applications utilizing Flutter and Dart, integrating state management best practices and RESTful APIs.
- Designing intuitive mobile user interfaces focused on performance and seamless user experience.

Data Entry & Field Data Verification Volunteer

1 Year

Community Development Committee – Ministry of Social Affairs and Labor

- Handled large-scale data entry, review, and verification processes for beneficiary records, ensuring high data integrity and accuracy.
- Streamlined coordination between field teams and administrative staff during data collection campaigns.

UI/UX Design Trainee

2023 (3 Months)

Damascus Intermediate Institute – UNRWA

- Mastered user-centered design principles, wireframing, and interactive prototyping using Figma.
- Bridged the gap between design concepts and front-end mobile implementation.

KEY PROJECTS

AURIX – Smart Tender Management System

2026

Team Leader, Front-End & AI Developer

- Leading a multidisciplinary development team to build an intelligent decision-support platform for tender evaluation.
- Architecting the Flutter front-end and integrating AI-driven document analysis capabilities.

Bulk Messaging & Aid Distribution App

Personal Project

Flutter Mobile Application

- Developed a specialized mobile tool for broadcasting bulk communications to organize aid distribution for Palestinian refugees, enhancing community outreach efficiency.

Mafia Social Deduction Game

Personal Project

Flutter Mobile Game

- Recreated the classic social deduction game in Flutter, implementing complex game states, interactive UI flow, and smooth animations.

EDUCATION

Bachelor of Informatics Engineering – AI Specialization

Expected Early 2027

Al-Sham Private University, Damascus, Syria

TECHNICAL SKILLS

- **Mobile & Frontend:** Flutter, Dart, Cross-Platform Mobile Development, State Management, Responsive UI
- **Backend & Databases:** Laravel, PHP, PostgreSQL, Firebase, REST APIs
- **Artificial Intelligence:** AI Integration, Applied Machine Learning, AI-Assisted Development
- **Tools & Design:** UI/UX Design, Figma, Git, GitHub, Jira

CERTIFICATIONS

- Claude 101 & Claude Code in Action — Anthropic
- Flutter Mobile App Development & UI/UX Design — UNRWA
- Programming Fundamentals — Programiz | ICDL — Edraak

LANGUAGES

- **Arabic:** Native | **English:** Good Professional Working Proficiency
